

# Questions for Parents to Discuss with Children

---

## Parameters

- Where should you use the device at home? (e.g. family spaces only)
- What is the difference between using the device for school work and using it for entertainment?
- What does it mean to 'balance' your time with technology and other activities?
- How can we as a family make sure we have 'face to face' time? (e.g. no devices at meal times, curfew for devices)

## Communication

- How will you make sure we communicate about digital devices on a regular basis?
- How will we monitor your device(s)? How often? What will we check? (e.g. emails, texts, search history, apps, accounts)
- What will you share about your device? (e.g. apps, accounts, learning content at

## Privacy Settings

- How can we create strong passwords? How can we keep track of our user names and passwords?
- How do you keep your password safe?
- Who should we share our passwords with and who should we NOT share them with? Why?
- Do you understand the privacy settings on different devices and accounts?
- How much information do we want to share with others through apps, accounts and websites? And who do we NOT want to share information with?

## Communication

- What is the difference between using the device to communicate with classmates for school-related work and using it to socialize friends?
- What does it mean to be respectful to and respected by others in life? How is that similar to interactions online?
- How do you stay safe online?

## Maintenance

- Where do you think the device should be charged and stored at home?
- How will you take care of your device?
- What will happen if the device gets lost, broken or stolen?
